ABOUT ME

I am a motivated and hardworking individual with a strong interest in technology and professional development. I have completed Matriculation and am currently studying in First Year while also pursuing a Full Stack Web Development course at Saylani Mass IT Training (SMIT). Along with my background in graphic designing, office automation, and freelancing, I am developing practical skills in modern web development. I am eager to gain hands-on experience, learn from real-world projects, and contribute positively to a professional team.

EXPERIENCE

Full Stack Web Development Training — Ongoing

Saylani Mass IT Training (SMIT) | 3.5 Months Completed

Currently gaining practical knowledge through structured training, hands-on exercises, and development projects in full-stack web development.

CAREER OBJECTIVE

To build a professional career in a dynamic organization where I can apply my skills in full-stack web development, graphic design, and office automation. I aim to gain practical experience, continue learning, contribute effectively to team goals, and grow professionally with the organization.
